— The latest Innovations in Rotogravure

Water-based inks offer a proven **reduced environmental impact** at comparable performance and costs.

Water-based technologies:
Pick up the trend!

We can all do more...

Everyone can commit and do more
for the sustainability: for our planet ,
for us and our children

We can all do more...

Short video produced at the end of her 8th grade in June 2020, by a 13 year old girl (my daughter)

Thank you for your attention.
